EXPERIENCE

- Data Analyst Intern** – Acadian Ambulance, Lafayette, LA Aug 2018 to May 2019
- Exploratory analysis (clustering, topic modeling) of rejected medical records to categorize and flag unbillable medical records earlier in order to reduce days to bill.
 - Analyzed the “virality” of medics with low medical documentation accuracy on their partners.
 - Time series analysis to forecast future number of billable calls for medic scheduling recommendations to operations managers.
- Great Lakes Summer Fellow** – University of Michigan, Ann Arbor, MI May to Aug 2018
- Analyzed real-time data from 15 stations and buoys in the Great Lakes, their formats, and documentation.
 - Developed a data processing script to normalize historical time-series data into a database.
 - Designed and implemented a time-series database to manage historical and real-time streaming data from the Great Lakes.
- Research Assistant** – University of Louisiana at Lafayette, Lafayette, LA Apr 2015 to Dec 2017
- Characterized phytoplankton community composition in regions affected by the Deepwater Horizon Oil Spill.
 - Collected, filtered, and processed water samples for phytoplankton ecology.
 - Cultured and maintained phytoplankton species.
 - Processed and compiled biological and chemical data from Vermillion Bay.
- NSF REU Fellow** – Dauphin Island Sea Lab, Dauphin Island, AL May to Aug 2017
- Processed, sanitized, and compiled several years (2009-2012) of CTD data from 15 stations.
 - Calculated Model-I linear regressions and statistics to make conclusions about the Mobile Bay to shelf transect.

SKILLS

Comfortable: Python (NumPy, pandas, matplotlib, seaborn), SQL, Git
Some experience: Machine learning (scikit-learn), NLP (NLTK, Gensim, MALLET), MATLAB, Java, time series (statsmodels)

CERTIFICATES

Georgia Institute of Technology, edX
MicroMasters in Analytics
exp. August 2019

HONORS/AWARDS

Southern Data Science Conference Diversity Scholarship	2019
UM's CIGLR Great Lakes Summer Fellowship	2018
Rockefeller Wildlife Scholarship	2016-2018
1 st place, Dauphin Island Sea Lab REU Poster Symposium	2017
NSF Research Experience for Undergraduates Fellowship	2017
Pinnacle Scholarship	2010

EDUCATION

University of Louisiana, Lafayette
B.S. Biology
May 2018

PRESENTATIONS

Improving the management of real-time data in the Great Lakes Oral, Great Lakes Summer Fellows Symposium, Ann Arbor, MI	Aug 2018
Nutrient flux and physical stability drive phytoplankton biomass variability along the Alabama shelf Poster, Ocean Sciences Meeting, Portland, OR	Feb 2018
Nutrient flux and physical stability drive phytoplankton biomass variability along the Alabama shelf Poster, REU Poster Symposium, Dauphin Island, AL	Aug 2017
